Sir:

The first non-patent literature (NPL) document (cite number 1) of the IDS filed May 15, 2008, is an English translation of an office action in a pending Japanese patent application. If the Examiner's review would be aided by a copy of the claims pending in that Japanese application, the Examiner is requested to contact the undersigned.

The first foreign patent document (cite number 1) of the May 15, 2008, IDS is a published Japanese application that was cited in the above-mentioned office action. In addition to an English abstract of said published Japanese application, corresponding U.S. and European patents (US5339388 and EP0550370) have also been identified and/or submitted. Other references cited in the above-mentioned office action have previously been submitted.

Respectfully submitted,

Date: May 15, 2008
